CLARESHOLM AND NOBLE, ALTA.

The Town Council

There was a meeting of the council on Thursday last at which very little of interest took place. There was a discussion on the infringement of the prerogative of the supply committee by officials and it was decided that in future all purchases must be made through the committee. There was special complaint made about the buying of coal and the supply of engine and cylinder oils. There was also a statement that the coal bought to date was not up to the standard. It was also noted that in future the long distance telephone is not to be used when a letter will answer the purpose just as well. The clerk was instructed to write Calgary and ascertain if there are any second hand extension ladders for sale for the use of the fire department. A telephone will be installed at the power house for fire purposes. Those present were Mayor Frost and Councillors Cumming, Holmes, Bowen and Milnes.

Perry--Darmody

Mr. B. L. Perry town engineer returned from his holidays Saturday bringing with him a welcome addition to the population of Clareholm—a lady who is now announced to the world as Mrs. Perry. When Mr. Perry left he left a notice through the press that he was going to take a partner into the firm but he did and the pleasant news is out that he was married on Tuesday, October 18th, to Miss Nan Darmody, daughter of Mr. and Mrs. James Darmody of St. Paul Minn. Mr. Perry, and his charming young bride, have the best wishes of scores of Clareholm friends for the best that is going in life, in which the Review joins heartily.

Kingsley--Angervine

An interesting event took place in Calgary on Tuesday when Mr. J. T. Kingsley one of Clareholm's most popular business men was married to Miss Nellie Angervine of Halifax, N.S., sister of Mrs. O. L. Reinecke. The wedding which was a very quiet one took place in the Cathedral of the Redeemer, the rector Rev. Dean Paget officiating. Mr. and Mrs. Kingsley left on a trip to the Okanagan and the coast and on returning will take up residence in the house formerly occupied by Mr. Albert Anderson, near the school, which Mr. Kingsley has purchased. Mr. and Mrs. Kingsley will receive whose hearty wishes from the people of Clareholm for a long happy and prosperous voyage through life.

Henry--Baird

High River Oct. 22nd. Mr. W. S. Henry and bride have returned from the coast where they were joined in the holy bonds of wedlock. The bride is the charming daughter of Mr. and Mrs. Thomas Baird of this town and is well known in Clareholm and Nanton where she has many friends. Mr. Henry is an old timer having lived here for twenty years being a prominent rancher. Mr. and Mrs. Henry have taken up residence on the big stock ranch near Brooks, owned by the groom, and start life together with the best wishes of scores of friends in Southern Alberta.

Miss Baird has many friends in Clareholm who join with the Review in best wishes.

The Parish Hall

A progressive Whist party will be held in the Parish Hall on Monday Oct. 31st, Thanksgiving day, at 8 p.m. Charge 25 cents each. Light refreshments served free. Ladies and gentlemen wishing to take part should let the secretary know, Mr. Robinson, the Bank of Commerce, by Saturday Oct. 28.

The Late Mrs. J. A. Copeland

Inexpressible sad was the death of Emma Roseman, beloved wife of James A. Copeland, who passed away on Monday night. Mrs. Copeland gave birth to a child a few weeks ago and while in a weakened condition contracted neuralgia in the right side. This spread rapidly and attacked the heart. She was brought into town so as to be convenient for medical treatment Monday paralysis of both sides set in and she passed away at 8 p.m. apparently without suffering. The death so entirely unexpected for a week ago came as a dreadful shock to the father and children. The family were all present when the silent messenger came. Mrs. Copeland was born in Augusta, Wisconsin, forty years ago and was married to Mr. Copeland in Carleton Place, Ontario, on Oct. 21st, 1891. Seven years ago the family moved to Alberta to the Elbow district. Her family of little ones called for the big share of her time but she was ever ready to lend a helping hand to those who needed God's heavenly help long live. She leaves a family of seven children the eldest of whom is Edward aged eighteen years. He with Newton fourteen, Grace twelve, Gertrude eight years and three younger children are left without a mother's loving ministrations. In her younger days Mrs. Copeland was a German Lutheran but since coming to Alberta had been connected with the Methodist church. The funeral took place Wednesday afternoon to the cemetery at Dollar Lake the Rev. Mr. Miller of Barons officiating. Mr. Copeland and family have the sincerest sympathy of a large circle of friends in the hour of their distressing bereavement.

The Choral Society

The Clareholm Choral Society held the first meeting for the season of 1910-11 on Tuesday evening in the chancel room of the Presbyterian church. The following officers were elected: Pres Mr. Walsh, Vice Pres Miss G. Telford, Sec-Treas Mrs. J. F. Miller, Conductor Mr. W. Moffatt, Executive Committee Rev. P. Henderson, Mrs. Stevens and Miss Ethel Cumming. While the work for the coming season has not been fully arranged the society hope to present an oratorio soon after the New Year. An invitation to join the society is extended to every one interested in choral work and rehearsals will begin in a couple of weeks. The annual completed musical festival of the "Southern Alberta Musical Association" will be held this season in High River in the month of March when it is intended to keep Clareholm's musical reputation sustained by sending a strong representation.

The W. C. T. U. Convention

Mrs. McKinney and Mrs. McCullum have returned from the W.C.T.U. convention for the provinces of Alberta and Saskatchewan held at Saskatoon. Mrs. McKinney says it was the largest convention yet held and gave impetus to a distinct forward movement for the cause. The outstanding feature of the convention was the presence and addresses of Mrs. McDonald of Chicago who is a more than ordinarily clever woman and exceptionally brilliant platform speaker. A vocal leader among women. The W. C. T. U. made rapid strides in membership during the year the increase being over five hundred. It was decided to appoint an organizer, who will devote her whole time to the work for a year. She will organize new branches and stimulate old ones, looking after the organization work generally. Mrs. McKinney's ability and devotion was recognized by her re-election to the presidency for the third year. She was also honored by being presented with a life membership in the Dominion W. C. T. U. Mrs. McKinney says the local option campaign in Saskatchewan is being prosecuted with vigor.

Scientific Farming

Mr. Harcourt Addresses Large Number of Clareholm District Farmers.

Greeted by a large crowd and listened to with the keenest interest the visit of Mr. George Harcourt deputy minister of Agriculture on Saturday last was appreciated to the full by the farmers of this district. Mr. Harcourt appeared at the institute held under the auspices of the Clareholm Agricultural Society and delivered an address on the principles of dry farming. Mr. Harcourt is a close student of modern methods in farming and frankly admits that many of his theories so far as they apply to Alberta have yet to be worked out. He was asked a large number of questions and in fact he ran up against as bright a bunch of farmers as he could find in the province. They didn't all agree with the speaker, indeed many took exception, and Mr. Harcourt always was frank in his admissions. His freedom from dogmatism did much to make him popular with the farmers and the conference, for such it was, rather than an address, was helpful to all. The hall was well filled when Mr. J. R. Watt secretary of the society, in the absence of the president, introduced the deputy minister.

He started off by saying that the expression dry farming in the past had been the occasion of raising in and had led to but all intelligent farmers now realize that an expression is not bad when it stands for advanced methods and the lucres in scientific aspects of farming. He described a dry farming country as one in which less than twenty inches of rain falls in the year on the average, and on a blackboard showed figures for the Medicine Hat, Lethbridge and Meadow Creek districts to show that they came within the meaning of the expression dry farming. There being no station here he could not give the weather reports for the Clareholm district. He said the conditions here made for a delightful winter and in normal years when the rain falls when most needed, the best climate of them all. The average of rainfall for a large number of years for the following countries was as follows:

Ontario.....	31.63
New York State.....	27.80
Iowa.....	34.71
Ohio.....	39.20
Missouri.....	40.71
Alberta.....	15.88

The average for the following districts for the past eight years were as follows: Medicine Hat 9.82; Lethbridge 15.13; Meadow Creek 13.96.

Taking the years when the bulk of the rain fell in May, June and July, when it was most needed, Mr. Harcourt showed that there were good harvests but in the years when there was little rain there was poor crops. While the Alberta rainfall made for a delightful climate there was need on the part of farmers to study carefully the problem of conserving moisture so to store it up when it is most needed. He said if we had a rainfall like the other states and provinces mentioned it would be necessary to build big barns and keep everything under cover.

Before going to the meeting he had visited a number of fields around the town and by boring found that the depth of moisture averaged from four to sixteen inches. On one farm where the soil had been well worked it was about two feet. He said that was best by some what we have a gainst possible scarcity and to live in hopes that there will be snow and rain to assure an abundant harvest. While we had a right to look for a satisfactory condition the intelligent farmer is the man who so works his land as to be ready for any emergency that may arise. Proceeding Mr. Harcourt dealt with various methods of plowing, harrowing, discing, harrowing and cultivating so as to best preserve moisture. His remarks were constantly interspersed with questions

and discussions from the audience, a fact which greatly pleased the deputy minister. They were not all one as to the benefits of first blankets, deep and shallow plowing and the methods advanced of treating newly plowed land so as to bring about soil rotting, conserving moisture and other points which the farmers have to solve in his every day work. Mr. Harcourt is an advocate of deep plowing. He strongly advised the farmers to study the moisture problem closely and recommended frequent boring as a means of keeping in accurate touch with conditions. He showed a common inch and a half auger tested to an iron rod which he uses for boring and by which he is ever in a position to accurately gauge the depth of moisture. A farmer with this simple contrivance can keep a record for every month and which should be used immediately benefit to him in formulating his policy for the years work.

The Meadow Creek School

Editor Review: Might I be allowed, through the columns of your paper to add a few words in support of "Meadow Creek ratepayers' views on the disgraceful condition of our school building. The outhouses, as he states, were blown in front of the school and have stayed where the wind left them a year ago. Last year over \$400 was spent in putting out, finishing the school but the school house floor has not been scrubbed for four years. Now it almost needs it. Over \$1.00 was spent on a fence to keep stock out and a well ventilated shed to keep the childrend horses in. These horses are allowed to roam all over the yard. There has been two Board meetings called by the chairman in the last eighteen months. He has called none in the last nine. The trustees on the board at present seem to be too busy with their own affairs to pay attention to those of the pupils. Under the circumstances would it not be advisable for them to resign and let some others, who can and will do better have the opportunity. Thanking you for the space I am, Another Meadow Creek ratepayer.

Municipality Of Clareholm Public Notice

In conformity to the ordinance respecting municipalities a copy of the voters list for the municipal corporation of Clareholm has been revised up to September 1st, 1910 and posted up in the office of the secretary of the said municipality where all interested may have free access to it. All appeals to add names thereto; to take names off; or to make amendments with in the meaning of the act must be filed with the secretary on or before Nov. 1st, 1910 after which said list of appeals will be posted in the secretary's office.

Further the municipal council of the said town of Clareholm will on Thursday Nov. 17th, 1910 sit as a court of revision on the said voters list in which all appeals and amendments will be heard.

George Simpson, Secretary of the town of Clareholm.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Armoury at High River, Alta." will be received at this office until 4:00 P.M., on Wednesday, November 2, 1910, for the construction of an Armoury at High River.

Plans and specifications to be seen at this Department, on application to W. Sonerton, Esq., High River, Alta. and at the office of J. J. O'Gair, Esq., Architect, Calgary, Alta. Tenders will not be considered unless made upon, and in accordance with the conditions contained in forms furnished by Department. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender.

By order

Don't trifle with a cold is good advice for parents and women. It may be vital in case of children. There is nothing better than Chamberlain's Cough Remedy for coughs and colds in children. It is safe and sure. For sale by dealers everywhere.

The best plaster. A piece of flannel dampened with Chamberlain's Liniment and bound on over the affected parts is superior to a plaster and costs only one tenth as much. For sale by dealers everywhere.

Biliousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ; to clean it, strengthen it, tone and invigorate it, to regulate the liver and to banish biliousness positively and effectually. For sale by dealers everywhere.

You are not experimenting on yourself when you take Chamberlain's Cough Remedy for a cold as that preparation has won its great reputation and extensive sale by its remarkable cures of colds and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. Sold by dealers everywhere.

The Review

Tariff reform seems to be quite an important issue at present in Canada, particularly as the farmers of the west through their organizations have declared themselves to Premier Laurier in no uncertain way. Tariff reform is spelt the same but it doesn't mean the same everywhere. In Great Britain tariff reform means the abandonment of free trade and the imposition of protective duties. In Canada tariff reform means the removal of protective duties, or at least the lowering of the duties to a level considerably below their present altitude in the customs schedules.

In Canada the whole question revolves itself to the problem of fixing schedules at the point where they will not oppress one class at the expense of another. That we must have a new social feeling is demanded by all but visionaries and misguided enthusiasts who think that barriers to commerce are immoral and that there should be absolute freedom of trade even if it is at the expense of the people of their own country. There have been a few fair-minded people made of late to line the farmers' against the artisan, the manufacturers and in fact against all those who buy the stuff that is grown on the farm. The Review is pleased to say the appeals have not met with a hearty response. The farmer, the artisan, or organization, can get the farmer of the west to sacrifice the east on the strength of an appeal to class pre-

They are entitled to honor for what they did in the days of the flesh, but it is to the living that the age looks for its action. However the fact remains that the present party is not a party of protectionists and if there is any hope of success in convincing the Liberal party that the present tariff is protectionist, it will be by pointing to the fact that the Liberals should give the farmers of the west the reduction in the tariff that is more than is apparent upon one looks under the surface at the tariff. The Liberals are not the party of power in the industrial and agricultural world. The Liberals never have been. The Liberals are the party of intellectual manufacture, unless it is Brantford, and it must be for some other purpose than votes that the tariff is not reduced to a fair level. The Liberals caused the International Harvester and other big American concerns to build in this country and while that was the purpose of the tariff, the farmers are now suffering from the policy of conservation. If Laurier is to carry the west he must heed the appeals of the farmer in some extreme form. The farmer is not a man who has to be big city and there must be big cities. There is to be found for what the farmer seeks. He is as anxious for the big city as the big city is for the farmer but he does not propose to let himself be ground under an increasing tariff when a less cumbersome one will serve the country just

The Press Convention

The provincial association of Alberta and Eastern British Columbia, which has been organized for some time and so far as practical work is concerned it was easily the most successful yet. It was decided to ask the Alberta government to pass a law requiring the boards of directors of public utility boards be compelled to advertise before they could pass any bylaws, to ask the Dominion government to abolish the duty on typing machines and to make machinery duty-free. The need for a force by which the American Merzanthaler Company put an end to this industry in Canada was pointed out. The need for a law for making newspapermen pay tribute to these interests. It was pointed out that all exists now as a scheme for the benefit of the few. In order to obscure places a few very true statements the ratepayers are mortgaged for \$20,000 to \$100,000 without any benefit to the public. It is something about the same. The ratepayers are mortgaged in real style by the city of Lethbridge. The board of trade entertained to a sumptuous banquet at the Hotel Lethbridge. The full function of the kind ever held in the west. Mr. Naismith of the Alberta Irrigation Co. Railway, took the delegates and the members of the board of trade to the six and six six mines and to the sugar factory at Raymond where they were accorded a most hospitable reception and a fine dinner. The city of Lethbridge is known as being rapidly a fact due to its vast natural resources and in a large degree to the public spirit of its citizens and the generous assistance of the Dominion government. Lethbridge wants the big dairy farming congress for 1912 and the newspaper men of the province will assist in the missionary work successfully. To get it, Lethbridge is at night.

The 1911 Council

Dear Mr. Editor—In your last issue you mentioned some possible candidates for the "Personnel" of 1911 council, also Mr. T. C. Milnes for Mayor. As the names mentioned, I think there are other names that should be considered. It is customary for the position alternator to step into the position of the Mayor when there is a vacancy and I understand Mr. Frost has refused to consider another term of office. Mr. Holmes has served the town faithfully and well and I think he should be considered. Mr. W. P. Trekey has also served a long term on the Council and would make a desirable officer for that position. I think Mr. Alden would be a good opinion that the majority of the present Council be returned. There are some straightening up to be done in the way of finances, and unless there are some changes made in the 1910 Council on the 1911 Board, mistakes are almost bound to occur. If the 1910 Council should go out in a body, it would be a great loss to an unfinished business will be entirely new to the incoming Council. How ever capable a body they might be, there is a great deal of business they would have to pick up and run through lack of experience and previous knowledge, would cause considerable overlapping. It is probable that the offices of Mr. Miller and Mr. Trekey would be filled by Mr. Alden and if these were filled by capable men, sufficient new blood would be infused. The town water-works is practically complete, but there are some things that need to be done to be made to the system. There is

no reason why at least some of the Aldermen having a thorough knowledge of this business from beginning to end, should not remain on the 1911 Council, to carry it to its completion. Mr. Milnes, Mr. Holmes, Mr. Cumming and Mr. Vanhoro all have a practical knowledge of this work and sufficient public opinion should be brought to bear upon them to have them remain in office as it is their duty to see the water-works complete. Thanking you for this space, I am,

Ratepayer.

Chiefly Clareholm

Kum and har sun phun at W. T. Righty Friday night.

Mrs. W. C. Miller and little son are visiting friends at Creston, B.C.

Next Monday being Thanksgiving day and a holiday places of business will be closed.

Mr. and Mrs. J. A. Smith of Macleod were renewing acquaintances in town this week.

Don't forget the Halloween social at W. T. Righty Friday night. There will be doings.

Mr. Spencer of the R. N. W. M. P. formerly stationed here, but now at Grassy Lake spent part of his holidays here this week.

Mr. Gulliford, formerly owner of the Holland farm, is here on a visit from Pendleton, Oregon. He is the guest of Mr. F. L. Slipp.

Principal Brownlee and Misses Doyle and McKelvie were in attendance at the school teachers convention at Fischer Creek this week.

Kenneth Simpson went to Calgary Monday and on Tuesday had secured employment. The building trades are busy in the Alberta metropolis.

Mrs. O. L. Reinecke and little daughter, returned Tuesday from a four months visit to New Brunswick. They were met at Calgary by Mr. Reinecke.

The choir of the Methodist church presented Miss Bevan, a farewell gift on the eve of her departure for Montana. She was given a pretty hand painted vase.

Mr. D. A. McKinnon of Meadow Creek, entertained a number of friends on Monday at a birthday dinner and received hearty congratulations on passing another mile stone.

R. Hart Gilmore, who accompanied his daughter to Brandon last week, was taken ill while there and underwent an operation for appendicitis. He expects to return in about three weeks.

D. P. Williams the butcher, gives notice that after Nov. 1st there will be absolutely no credit given at his shop. There will be no exceptions to this notice so please don't ask for credit.

Miss Clara Frederick returned from Brandon Saturday, whither she accompanied Miss Gilmore to the hospital there. She says there are 623 patients in residence for treatment for mental troubles.

Mr. Johnston, of Aurora, who returned from a visit to his daughter near Ponoka, left on Monday for his home in Ontario, after spending the week end with his son Mr. W. G. N. Johnson. Mr. Johnson is his frequent visitor to Clareholm has become well known and is highly esteemed by a constantly growing circle of friends.

One of the season's big dramatic successes is "Alone in the Kitchen" which will be seen at the I. O. O. F. hall on Nov. 4th. The scenery for this production is said to surpass anything in the rural line ever carried by a rural production, as every scene and picture is staged with special scenery, and fine music is furnished by the company's own band.

The announcement is made that the well known law firm of McKenzie McDonald & Watt of Macleod and Clareholm has dissolved and new arrangements made. In Clareholm Mr. J. R. Watt will practise under his own name and in Macleod Mr. McDonald has taken Mr. D. G. McKenzie into partnership and the firm will be known as McDonald & McKenzie.

The mock parliament in connection with the Y. M. C. A. was opened Tuesday night with a large attendance of both members and spectators. There was lots of enthusiasm and fun and the members seemed to enter heartily into the spirit of the evening. The speech from the throne was read by Rev. A. B. Argon, sitting Lieutenant Governor, and dealt with a variety of subjects in humorous fashion. It was followed by a debate in which Premier Brownlee and Messrs. Lindenfeld and McKinnon spoke for the government and Messrs. Quayle, Walsh and Boniface for the opposition. There were a number of notices of motion, and quite a number of embarrassing questions asked which the Premier skirted around with statesmanlike skill. The parliament will meet again in two weeks. It bids fair to be a big success that is if all the speaking is not left to one or two.

J. A. Holden was in Nanton on Wednesday.

Mr. D. B. Vanhorn came down from his farm near Gadsby on Wednesday night train.

Clareholm is now connected with Barons by telephone and the Carmanaguy extension will shortly be completed.

Several carloads of potatoes have been unloaded here these past few weeks. They are Northern Alberta potatoes and while somewhat soggy are welcome in view of the shortage of the crop here. It's a fact of which many are now getting proof that the dry mealy potato is grown only south of the High River.

The October number of the Athletic World, which has just reached us, is a pronounced improvement in every department over past issues, its coast to coast treatment of the big things in the sphere of Canadian and universal sports is exhaustive and timely, its illustrations must be seen to be appreciated.

The W. M. S. of the Methodist church wish to again remind friends that a bale of old clothing, patches etc. is being packed for the Indian school at Morley and contributions for it would be gladly received. The bale will be packed on Thursday of next week and any one wishing to help in this good work would confer a favor by sending their contribution to the home of Mrs. McKinnon by that day.

Rev. Mr. Aiken one of the field secretaries for the department of temperance and moral reform of the Methodist church delivered an address in the local church Wednesday night and aroused a lot of interest in the work of his department, which has been one of the most active of churches general activities in the past six years. Mr. Aiken is a man of fine platform appearance and an excellent speaker.

Important changes are taking place in connection with business houses in town. Hip Lung has leased the Alberta hotel and will run it as a big restaurant and boarding house. This will necessitate his removal from the Cogswell block, next to the Post Office and this stand has been taken by Jones & Murray, mens furnishings, who will move in a couple of weeks or immediately after their big sale.

Publicity Commissioner C. S. Hotchkiss states in an interview that a object of the establishment of the department has already been attained namely the swelling of the population of the province by 400,000 people. No count has been kept but he is positive that the mark has been passed and Alberta will be in a position after the census next year to demand an increased federal subsidy. The work of the department will be enlarged.

Mr. Malcolm McKenzie's many friends here will be pleased to learn that his recent severe illness that he will be back on his feet in the near future next month. Mr. McKenzie has formed a new law firm to be known as McKenzie, Jackson and Watt. Mr. Jackson formerly of the firm of Cross, Short, Cowan and Biggar of Edmonton has joined forces with Mr. McKenzie and will move to the South.

Jones and Munro, the mens outfitters, are advertising a big sale in order to reduce the stock to quiet time preparations. This firm has only been in business a year and consequently every article in the store is practically new. There are no shoddy worn goods and no out of style and out of date goods to palm off on the public. Every thing is new and as the firm is putting on a genuine reduction sale it would be well worth while for the men of the district to look over the bargains offered.

Next Sunday will be observed in the Methodist church as Thanksgiving day and the pastor Rev. A. B. Argon will preach sermons appropriate to the occasion. The choir will have a program of music in harmony with the thanksgiving thought. On Monday, Thanksgiving night, the Ladies Aid Society will serve the usual chicken pie supper which promises to be as big a success as ever. Elaborate preparations are being made and even if you do think the best of embarrassing questions asked which the Premier skirted around with statesmanlike skill. The parliament will meet again in two weeks. It bids fair to be a big success that is if all the speaking is not left to one or two.

Give Your Cows
a Square Deal

What would you think of a
farmer who would thresh his
grain with a machine that would
cut off one bushel in every
four with the chaff?

Wouldn't think much of his
judgment, would you?
Then what do you think of a
man who still skims milk by
the old-fashioned "setting" sys-
tem and losses about one pound
of cream in every four?
Any creamer-man will tell
you that with a

DE LAVAL

Cream Separator

you get as much cream from
three cows as you can from four
by any gravity setting process,
and besides, you will have nice,
fresh, sweet milk to feed to your
calves.

Ask us to prove it. Try a
DE LAVAL at our expense.
Write for full particulars about
our free trial plan.

Owing to the crop shortage
farmers will be given the ad-
vantage of considerably easier
terms.

You Couldn't do this with An Ordinary Range

because it has an ordinary grate. If the fire goes out
at one end of the firebox, you must dump all of the
live coal to rebuild it. Not so with the McClary Sask-
Alta Steel Range. You can dump the ashes at either
end and build a new fire without disturbing the fire in
the other end. The McClary Patent Duplex Grate—
double and independent in operation—makes dead fire
in Sask-Alta impossible and saves waste of "red"
coal through unnecessary shaking. A

Sask-Alta Steel Range

saves fuel and cuts down coal bills. It does more work and
better work than the best ordinary range ever made. It has
more improvements—more exclusive good points. The next
McClary agent will consider it a pleasure to show you
that your range money will be best spent for a Sask-Alta.
